CCNA®/Firewall Security 5-Day Boot Camp

more lab time than any of our competitors with over 35 labs! We encourage students to bring their own laptops to take full advantage of our labs after class each day.

In addition to the best CCNA training available, our five-day class will provide you with an incredible introduction to firewall security, including PIX, Checkpoint and software based. Regardless of whether you are heading for either your CCNP®, CCSP® or your Security tracks, this course will give you the foundation you will need to be successful.

[Compare Us With The Competition](#)

Get CCNA certified, and take the necessary steps to prepare for your [CCNP](#), [CCSP](#) and other Cisco certifications.

Prerequisites

The CCNA/Firewall Security candidate must possess a thorough understanding of network fundamentals including OSI model, TCP/IP Protocol, and basic Cisco hardware familiarity. Suggested, but not required, certification levels are Net+ and/or an MCP.

Guarantee

GlobalNet Training will refund 100% of your tuition upon return of all course materials, if, by the end of the first day of class, you notify your instructor that the course, curriculum, or instructor does not meet your expectations. For our CCNA course, we offer the opportunity to re-sit another available CCNA course at no additional charge in Dallas or for an administrative/facility fee of \$100 per day at any of our other locations. Re-sits are based on availability. **ENROLL NOW**
